

Spanish Curriculum Map

Intent

The Spanish curriculum aims to inspire students to become strong communicators in both Writing and Speaking, to understand the gist and details in extracts from a range of authentic sources. We strongly believe in languages as a skill for life and something students should enjoy and find rewarding. Through a knowledge rich curriculum, students acquire an in-depth understanding of the core vocabulary and grammatical structures, which they can use and manipulate in a range of contexts. Our intent is to enable students of all abilities to develop their Spanish language skills to their full potential, equipping them with the knowledge to communicate in a variety of contexts with confidence. The Spanish curriculum is delivered through a wide range of activities focusing on developing the key four languages skills (Listening, Speaking, Reading and Writing) via Visual, Auditory and Kinaesthetic methods. By the end of Year 11, students need to be operating as learners with some degree of independence in order to achieve the highest levels in the GCSE examinations. They will have a systematic knowledge of the vocabulary, grammar, and the sound and spelling systems of their new language. They will have had the opportunity to reinforce this knowledge with extensive planned practice and use, in order to build the skills needed for communication. The content of the new language is taught in a creative and stimulating way to widen students' knowledge of the culture, history and literature of speakers of Spanish. The ability to understand and communicate in another language is a lifelong skill for education, employment and leisure in this country and throughout the world.

Implementation						
Term	1	2	3	4	5	6
Year 7	<u>Me presento (Introducing myself)</u> In this unit pupils are introduced to the basics of the language, including phonetic and spelling patterns, basic grammar such as agreements and word order, and key vocabulary such as numbers and dates. They develop their ability to understand classroom commands and to use basic classroom language among themselves and with the teacher appropriately. Students will also acquire vocabulary about free time activities and giving simple opinions about what they like/dislike. Pupils develop the ability to introduce themselves, ask others about personal information and to express what activities they usually do. They begin to develop their ability to express opinions and preferences. Students will explore how Christmas is celebrated in Spanish-speaking countries at the end of the term.		<u>Mi familia (My family)</u> They will learn vocabulary about family members and how to describe in the third person. They will continue developing the language to give opinions as it is an essential part of the GCSE. Students will keep working on the present tense of regular verbs and will learn how to build simple sentences to express what they usually do with their family. Students will be introduced to photo description and reading aloud words. This unit will prove an introduction to the Thematic Context of <i>Personal World</i> of the GCSE curriculum.	<u>Mi insti (My school)</u> Pupils will learn vocabulary about school facilities and expressing likes and dislikes about subjects. They will also learn how to talk about activities they do at break time and clubs. This will serve to consolidate conjugation in the target language in the present tense. Students will also be introduced to the near future tense. They will continue to practise photo descriptions related to the topic of school and reading aloud to support exam speaking skills. This unit will prove an introduction to the Thematic Context of <i>School and studies</i> of the GCSE curriculum.	<u>Mi ciudad (Where I live)</u> Pupils will learn vocabulary about places in town and giving simple opinions about their houses. They will also learn how to talk about activities they want to do. Students will practise and consolidate the near future tense and conditional tense to express future wishes and plans, while they justify their opinions. They will continue to practise photo descriptions and reading aloud related to the topic of my city. This unit will be an introduction to the Thematic Context of <i>My Neighbourhood</i> of the GCSE curriculum.	Revision Revision ahead of end of year exams Exam skills will be practised within each lesson, with a focus on Listening, Reading and Writing skills. Feedback Students will be provided with feedback from their Receptive Skills paper, as well as their Writing paper, to ensure misconceptions are addressed and key content (both vocabulary and grammar) is embedded before moving into Year 8. Cultural project: After their exams and feedback lessons, students will work in small groups to create a Spanish verb conjugation song.

Impact:

To ensure that all students achieve mastery in specified knowledge, students are formatively assessed regularly at KS3 through trackers and teaching is adapted accordingly. Assessment data is used to judge the success of the curriculum and progress towards mastery, with teaching time allocated to the re-teaching of specific knowledge. Knowledge of vocabulary is assessed through fortnightly vocabulary tests at KS3, and KS4. There will be regular feedback given on the progress made in the four main skills: reading, listening, writing and speaking. The impact of the curriculum upon students becoming linguists who can communicate effectively in the target language is assessed through students' participation during lessons and their engagement with homework tasks. Extra-curricular activities such as a trip to Spain and a languages enrichment club will also provide students with the opportunity to put into practice what they have learnt in the classroom, and to experience first-hand the benefits of learning another language.
